

Danium S. Syed

Applied Cybersecurity & AI Security

Berlin, Germany • danium.syed@gmail.com • 0174 7016505 • daniumsyed.github.io
linkedin.com/in/danium-syed • scholar.google.com/citations?user=OWGHxCsAAAAJ

Summary

Passionate Computer Engineer and Erasmus Mundus Scholar. Solid experience in DevOps, System Administration, and Artificial Intelligence security research. Currently completing a double Master's degree in Cybersecurity and holding a CCNA certification.

Education

Kadir Has University & SRH Berlin University of Applied Sciences

Istanbul & Berlin

Erasmus Mundus Double Master's in Applied Cybersecurity (CyberMACS)

Sept 2024 – Sept 2026

- Selected among the top 32 students from over 1,000 applications
- Received a fully funded scholarship given to the top applicants
- GPA: 3.48/4.00 (KHAS), 1.8 (SRH)

American International University-Bangladesh (AIUB)

Dhaka, Bangladesh

BSc in Electrical and Electronics Engineering

Sept 2019 – Sept 2023

- Received multiple awards and studied on a full scholarship since admission
- Graduated top of class with a CGPA of 3.98/4.00 (1.03 German scale)
- Received Best Project Award for Thesis/Capstone Project

Mount Royal Academy

Bangladesh

Pearson Edexcel IGCSE and A-Levels in International British Curriculum

June 2017 – June 2019

Experience

Cybersecurity Intern

Istanbul, Turkey

Cyberforce

June 2025 – Sept 2025

- Developed internal tools for security testing of LLM/ML models from PyTorch, TensorFlow, Keras, Sklearn, and XGBoost, detecting insecure serialization formats inside Docker containers and malware-corrupted models to prevent model serialization attacks
- Conducted on-site and offline penetration testing of ML and LLM models; completed all levels of the Gandalf and Prompt Airlines CTFs
- Gained practical knowledge of ISO 27001 through internship training
- Penetration tested various HackTheBox systems, gaining practical knowledge of web security

System Administrator

Dhaka, Bangladesh

SECOM Technologies Ltd.

Mar 2023 – Aug 2024

- Managed Linux, macOS, and Windows virtual machines supporting internal business applications
- Administered Proxmox virtualization infrastructure and used Ansible playbooks

ICT and DevOps Intern

Grameenphone (Telenor)

Dhaka, Bangladesh

Jan 2023 – June 2023

- Automated ICT workflows and built an internal tool to monitor monthly product revenues across 8 products, presenting them on a dashboard
- Worked on the system architecture formation of Grameenphone Alo, a proprietary IoT platform
- Extensively worked on hybrid-cloud architectures and Kubernetes, and on secure CI/CD deployment through Jenkins, Docker, and Terraform
- Conducted on-site surveys of Grameenphone datacenters

IT Educator

Dignitus International School

Narayanganj, Bangladesh

July 2017 – July 2019

- Educated students from grade 8 to 10, with multiple A* achievements in taught subjects for board exams
- Maintained lesson plans and liaised with the international education board Edexcel

Projects

Master's Thesis: Security Analysis of Machine Learning Artifacts in Containerized AI Supply Chains

Jan 2026 – present

- Conducted security analysis of containerized ML systems to measure prevalence and distribution of embedded model artifacts across Docker ecosystems
- Identified security risks in ML supply chains by statically analyzing model files (PyTorch, TensorFlow, ONNX, Pickle) for unsafe serialization and code execution vulnerabilities
- Built an automated pipeline to extract container filesystems and scan ML artifacts, generating empirical insights into real-world deployment risks

Linux Home Server (HomeLab)

Ongoing

- Built from scratch and maintains a Debian-based home server for security research, home automation, and media consumption
- Follows DevOps practices and maintains high uptime
- Technology stack: WireGuard, Docker Compose, Proxmox

Bachelor's Capstone: Long-Range Off-Grid Communication System Deployed with Amphibious Rovers

Jan 2023 – Sept 2023

- Built a mesh communication system using LoRa modulation for deployment in disaster scenarios via amphibious rovers
- Provides text messaging and location-based communication services for affected users in disaster zones

Publications

Reputation and Energy-Aware Dynamic Hybrid Consensus (READ-HC) Model for IIoT

(Proc. CIIT 2026)

Analyzing Political Sentiment on Twitter with Zero-Shot Large Language Models

Jan 2026

R. Ayoub, E. O. Njoku, *Danium S. Syed*, N. Nachevski
(IACyC 2026)

Honors and Awards

- 5th Place (All Solves), CYBERUS Spring School CTF Competition — Lorient, France (2026)
- 2nd Place (All Solves), CyberMACS Winter School CTF Competition — Istanbul, Turkey (2025)
- Erasmus Mundus Full Scholarship, EMJM in Applied Cybersecurity — Turkey/Germany (2024)
- Dean's Best Project Award, AIUB — Dhaka, Bangladesh (2023)
- Dean's List Scholarship, AIUB — Dhaka, Bangladesh (2019)
- Freedom Fighter's Scholarship, AIUB — Dhaka, Bangladesh (2019)
- Edexcel High Achiever's Award, IGCSE/Grade 10 — Dhaka, Bangladesh (2017)
- Featured in The Daily Star and The Daily Sun, IGCSE/Grade 10 — Dhaka, Bangladesh (2017)

Certifications

- Building Resilience: Navigating Vulnerability, Risks, and Continuity in a Dynamic World — CyberMACS (2026)
- Cisco Certified Network Associate (CCNA), CSC014934967 — Cisco (2025)
- The Bits and Bytes of Computer Networking — Google/Cisco, Coursera (2020)

Skills

DevOps: AWS, Docker, Kubernetes, Terraform, Jenkins, GitHub Actions

System Administration: Linux, Networking, Virtualization, Containers, Git

Privacy & AI Security: Differential Privacy, Agentic AI, PyTorch, TensorFlow, vLLM/Ollama

Security Analyst: Microsoft Sentinel, IDS, Threat Intelligence (MITRE ATT&CK), Incident Response, Jira

Scripting: Python, JavaScript, Bash, LaTeX

Languages: English (IELTS 8.0), Bengali (Native), Turkish (A1), German (A1, ongoing studies)
